Subject: Trial Availability

Hi James. I have a case scheduled to go in January in Berkshire Superior Court that you did a drug analysis on. While I think this case may be a plea, I would like to be able to schedule protective orders for days you are unavailable in January in case I am wrong. So can you just let me know what days are bad for you in January? The Defendant's names is [REDACTED] and the lab No. is [REDACTED]. Thank you, and I certainly won't you come out here if I don't have to.
